

WORKING WITH IPA TO CO-SPONSOR CE EVENTS

The Idaho Psychological Association is approved by the American Psychological Association (APA) to sponsor continuing education for psychologists. IPA does not offer an application process for pre-approving events hosted by other organizations for CE for psychologists under this APA designation. We do not have the resources to provide that service.

On occasion, IPA will choose to partner with another organization to co-sponsor an event when the CE Committee feels the event meets the association's goals for educational programming and income generation. If your organization is getting ready to plan an event and you would like IPA to consider partnering on it, please let us know 12 months prior by contacting the IPA Office at IPAoffice@idahopsych.org. Our CE Committee generally meets monthly. So, we will try to respond to your request within 60 days regarding our ability to partner with your organization to co-sponsor an event.

Please recognize, obtaining and maintaining APA's Sponsor Approval is an ongoing rigorous process. If IPA agrees to co-sponsor an event with your organization, we are required to maintain responsibility for the program and its content per the standards and criteria for that program. Consequently, IPA must be involved in selecting and approving speakers, establishing the schedule, wording on the marketing brochure, onsite operations, etc.

IPA reserves the right determine which event(s), if any, are a good fit for IPA.
