

LEARNING OBJECTIVES & INSTRUCTIONAL LEVEL OF IPA CONVENTION 2023 SESSIONS

CAMS-care Suicide Prevention: The State of the Field & A Primer on the Collaborative Assessment & Management of Suicidality - presented by Raymond P. Tucker, PhD

After completing this advanced workshop, participant will be able to:

- Discuss factors that contribute to suicide rates in populations of the US.
- Describe evidence-based suicide assessment and treatment protocols.
- Describe how to optimize CAMS in a system of clinical care.
- Discuss issues unique to working with suicidal patients and adapting CAMS to these issues.

Idaho Board of Psychologist Examiners: 2023 Updates to Laws, Rules, Procedures & Ethical Concerns - presented by Eric Silk, PhD, MSCP, & Helen Napier, PhD, ABPP

After completing this advanced workshop, participant will be able to:

- Explain the impact of the ZBR Law Review and the resulting changes to the Rules of the Idaho State Board of Psychologist Examiners.
- Identify the four elements of Idaho Virtual Care Access Act in effect July 1, 2023.
- Describe the impacts of PSYPACT in Idaho.
- Overview the changes in how Service Extenders can be utilized in Idaho.
- Demonstrate ethical decision-making skills in case presentations.

Suicide in Idaho & Evidence-Based Follow-Up Support for Adults & Adolescents with Suicidal Ideation: Lessons Learned through the St. Luke's "SPARC" Trial - presented by Anna Radin, DrPH

After completing this intermediate workshop, participant will be able to:

- Describe latest epidemiologic data on suicidal ideation, suicide attempts, and completed suicide in Idaho and nationally in adults and adolescents.
- Explain risks for people at risk for suicide associated with care transitions and identify opportunities for evidence-based intervention in the context of long wait lists and resource-constrained settings in communities in Idaho.
- Describe the evidence behind the two brief contact interventions compared in the SPARC Trial and identify opportunities to deliver these interventions at scale.
- Explain the importance of engaging with People with Lived Experience with Suicide to enhance both clinical trials and public health practice.

Suicide Risk Assessment & Intervention in Youth & Adolescents - presented by Gretchen Gudmundsen, PhD

After completing this intermediate workshop, participant will be able to:

- Discuss current state of youth and adolescent suicidality
- Apply key components of a suicide risk assessment in youth
- Identify evidence-based intervention for suicidality in youth
- Use assessment and intervention strategies with youth and families

Ethical Decision-Making Relating to Suicide – presented by IPA's Ethics Committee members

After completing this intermediate workshop, participant will be able to:

- Develop strategies to mediate the risk of ethical dilemmas that can arise with suicidal clients.
- Apply ethical principles to ethical dilemmas that arise with suicidal clients.
